01 BASE ROUTE | 3KM

01 Start at Yarner Wood car park, ///quiz.lecturers.giraffes. The pond and small viewing hut beside the parking area make an easy first stop.

02 Follow the track past the information building and cross the cattle grid carefully. Mind small feet and dogs' paws.

03 Continue past the bird boxes until the track forks. Take the broad, level path rather than the uphill branch.

04 After roughly ten minutes, look for the wooden hut, which often displays artwork by local schools.

05 From the hut, follow the track directly opposite its doors, avoiding the uphill branch.

06 Continue for around ten minutes to a bushcraft clearing with handmade structures. Look for the forked bench sculpture before continuing.

07 Follow the track to the T junction with valley views. Take the descending path back towards the car park. Small side paths lead to the stream and bridges, but return to the main track to finish the loop.

Paths and access can change without us knowing. We do our best to keep our guides up to date.
Weather and ground conditions can change quickly. Check local notices and use your judgement.

02 OPTIONAL EXTENDED ROUTE | 5KM TOTAL

01 At the bushcraft clearing, choose the established outer tracks through the reserve instead of completing the short loop.

02 Continue around the woodland perimeter on marked tracks, checking the route map at junctions.

03 Visit the Woodland Centre near the streams if it is open and accessible.

04 Rejoin the main return track and follow it back to Yarner Wood car park.

IMPORTANT SAFETY INFORMATION

Stay on established reserve tracks and check the route map before taking the optional longer loop, as the woodland has several junctions. Take care crossing the cattle grid and on slippery roots, wet leaves and small stream crossings. Supervise children beside ponds and streams. Give deer and other wildlife space, and keep dogs under close control, especially around ground nesting birds. The car park is small, so avoid obstructing access.

IN AN EMERGENCY

CALL 999 OR 112

Ask for Police, then Mountain Rescue.

CARE FOR DARTMOOR

Leave no trace. Give wildlife and livestock space, keep dogs under control and leave gates as you find them.

Check the weather, carry suitable clothing and water, and save the GPS route for offline use.
